

The P&G Federal Credit Union is doing its part to Go Green! In an attempt to be more eco-friendly, your credit union is using geo-thermal heating in the new building and has instituted a recycling program including aluminum, plastic, paper and cardboard. We are excited about this new program and are asking you to join our efforts. Little things go a long way such as cutting down on paper bills and receiving them electronically. That is what we are encouraging you to do with us. Please sign up for paperless billing and get your statements through your e-mail. It's fast and easy. Thanks for Going Green!

To sign up for HFS (Home Financial Services) to view your account and e- statements, please [click here](#).

To sign up for e-Statements, go to the Services section of your HFS account and fill out the Change Statement Options request form. You can opt-in for e-statements and e-mail notification with your current e-mail address. Once you opt-in for e-statements, you will be able to view your next cycled statement online. To change your statement status from paper to electronic, please [click here](#).
